

## Easy Online Backup for Businesses

### OzeMozy Online Backup – Simple, Automatic, Secure

From small businesses to large corporations, the critical task of PC backup can be an expensive and challenging endeavor. Fortunately, OzeMozy has made enterprise backup possible for everyone with its affordable, secure solution that's simple to manage and even easier to use. Whether you're the office manager of a small business, an IT consultant, or the CEO of a Fortune 100 corporation, OzeMozy is your enterprise solution for remote data backup.

Your IT department will appreciate the way OzeMozy seamlessly integrates into your organisation's existing infrastructure, and your finance department will appreciate the fact that OzeMozy doesn't require any additional capital expense for tapes, CDs, or hardware.

### How it works.

**1. Sign up for an account.**

Activate an OzeMozy user account, which will allow you to download the OzeMozy software. Its quick, easy and our step-by-step instructions will guide you through the process (if required).

**2. Download and install software.**

OzeMozy downloads in just seconds, and the installation is simple and fast.

**3. Select files to be backed up.**

Simply check the boxes next to the backup sets, or types of files you want to back up, and OzeMozy does the rest. In addition to selecting files by backup sets, you also have the option of selecting specific files and directories.

OzeMozy currently supports Windows 2000, XP, and Vista, and Mac OS X 10.4.  
OzeMozy supports Windows 2000, 2003, XP, and Vista.

### World Class Data Centers

Your data deserves the highest protection available with the latest in technology. OzeMozy protects your data in multiple data centers with 24/7/365 onsite monitoring and security, state-of-the-art fire detection and suppression systems, and seismic safeguards that can withstand a 7.5 magnitude earthquake (based in Salt Lake City, Utah). Redundant power distribution units and diesel generators ensure that even in the worst of circumstances, your data is protected.

## Robust Feature Set

OzeMozy is packed with all the enterprise-quality features you would expect from a full-service backup solution including:

### Security

- **128-bit SSL encryption** — Safely secures your data during transport.
- **448-bit Blowfish encryption** — Safely secures your data on our servers.
- **Private encryption key options** — Choose our own 448-bit key or manage your own private key to encrypt your data.
- **Near Continuous Data Protection** — OzeMozy automatically detects and backs up new and changed files every 2 hours.

### Performance

- **Automatic or scheduled backup** — Tell OzeMozy when to perform your backups. Automatic is the simplest method in which backups are performed while your computer is not in use. Scheduled backups can be performed daily or weekly at a specified time of day.
- **Block level incremental backups** — Saves bandwidth and ensures future backups are lightning fast.
- **Bandwidth throttling** — You can tell OzeMozy to use more or less of your upload bandwidth so other higher priority services can run unimpeded.

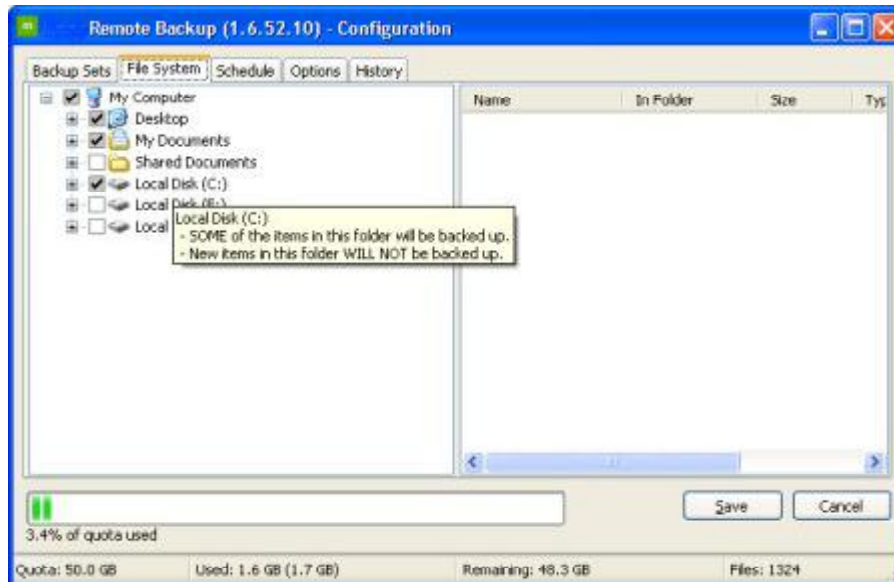

### Ease of Use

- **Version (snapshot) support** — Users have the option of restoring from multiple file versions up to 30 days in the past.
- **Backs up SQL, Exchange and file servers** — Protect mission-critical data easier than ever with OzeMozy.
- **Network Drive support** — The ability to back up networked or mapped drives
- **Windows Server support** — In addition to Windows Vista and XP, OzeMozy also backs up your Windows 2003 and Windows 2000 servers. 64-bit Windows is supported.
- **Open/locked file support** — No need to close files in order to back them up. OzeMozy backs up all open and locked files, including Outlook PST files.
- **OzeMozy's easy-to-use interface** was designed with the "non-tech-savvy" user in mind. It's as simple as selecting the files to back up, scheduling the times, and letting OzeMozy do the rest.
- **Backup sets** are pre-built for the most common file types. Advanced users may edit existing backup sets or create their own.

## Special Launch Offer:

One time Set-up: \$9.95  
Licenses: \$6.95 each per month  
Storage: \$1.00 / GB per month

**You will need one license for each computer being backed up.**

## You're Free To Choose

Alternatives to OzeMozy's Online Backup Service

- Burn a new CD or DVD every Sunday night and store it at your brother-in-law's office.
- Buy an external hard drive and hope your office doesn't burn down.
- Do nothing and don't worry about backup. (We suggest closing your eyes, plugging your ears and repeating, "I'm in my happy place, I'm in my happy place.")
- Run a cron job of rsync, gzip and mcrpt piped over ssh to your friend's server over his DSL line.

Of course, we think OzeMozy is the best and easiest solution to the backup problem! Contact us now, by emailing [sales@ozefax.com.au](mailto:sales@ozefax.com.au) or call 1300 729 660 (option 1 for Sales) to obtain your License(s).
